162TEN Appeal

APPLICANT NATURAL AND BUILT ENVIRONMENTS' MOTION
TO DISMISS APPELLANT ROSEMARIE IVES APPEALS

Dear Ms. Rice,

Rosemarie Ives has been a dues paying member of the Nokomis Club of Redmond for 12 years. As a member in good standing she has all the rights and responsibilities of Club membership to participate and by Presidential appointment to represent the Club in their activities.

It is in fact the Nokomis Club of Redmond and their members who are most harmed and injured by the proposal to demolish the Nokomis Building. Removal of the building would diminish, devalue, and dishonor their considerable community service efforts as well as those contributions from the collective women volunteers of Redmond. Negated would be the example the Nokomis women provided which stands as an incentive to all women in community service that perseverance in the face of adversity can produce valuable personal and community benefits. Unrecognized are the accomplishments that occur when dedicated individuals join in a common cause to provide community services during a time of severe national crisis.

During Rosemarie's extensive public service experience, she has promoted processes beneficial to community affairs. Throughout the current proceedings she has cooperated with other appellants and met each deadline with thoughtful and appropriate responses. Rosemarie is eminently qualified to continue to participate in the 162TEN Appeal process.

Sincerely,

Alexa Muñoz, President
Nokomis Club of Redmond
