**Subject:** 162TEN

Cheryl

I am no longer pursuing my appeal of the 162TEN project.

My opinion on the merits of this project have not changed; in short the project does not seem to meet city standards.

The city's approval and appeal process seems to function in a way that bars comment and input from city residents and project neighbors.

At this point, I do not have time to go through the burdensome appeal process when the project appears to have a forgone conclusion.

Keith
