contact: Planning GIS, City of Redmond

Notes:

- Arterial and collector streets are shown in Map -- N-NR-1: North Redmond Neighborhood Circulation Plan.
- Connections represent a general alignment and infrastructure to support the respective use may be provided along one or both sides of paved streets.

* - Connection types, cross-sections, and final alignment shall be considered by the City of Redmond's Technical Committee.

** -- Under the guidance of the City of Redmond's Technical Committee, further consideration of future connections is required to take place as part of new development.
