EXHIBIT 1 TO RESOLUTION NO.

Project Description

The Project consists of the acquisition of land at 15500 N.E. 95th Street, in the City of Redmond and the construction of facilities thereon. The Company will construct a building of approximately 20,000 square feet. The Company's business consists of manufacturing machinery which is used in the food industry. The Company plans initially to use approximately 12,000 square feet of the entire facility (approximately 60%), with the balance being leased to entities which conduct activities which are qualified "industrial development facilities" under the Act. The building also includes dock high truck facilities, 27 foot high ceilings and will permit the addition of a second floor in the future.

The Project will require the acquisition and installation of new and existing utilities and other things necessary in connection with the foregoing general description.
