AN ORDINANCE, relating to the installation and use of electric conductors and equipment installed within or on public and private buildings and other premises, including connections of such installations to a supply of electricity and also mobile homes and travel trailers; adopting an Electrical Code for the City of Redmond; requiring licenses and permits; prescribing fees; providing penalties for violations; and repealing Ordinance No. 113.

THE CITY COUNCIL OF THE CITY OF REDMOND DO ORDAIN AS FOLLOWS:

Section 1. Short Title. This ordinance and amendments hereto shall constitute the "Electrical Code" of the City of Redmond and may be cited as such.

Section 2. Adoption of Electrical Code by Reference. The National Electrical Code, 1965 Edition (NFPA No. 70, ASA C1-1965), published by the National Fire Protection Association of 60 Batterymarch Street, Boston, Massachusetts, is hereby adopted by reference and incorporated herein as if fully set forth at length herein as the Electrical Code of the City of Redmond for regulating the installation and use of electric conductors and equipment installed within or on public and private buildings and other premises, including yards, carnival and parking lots, and industrial substations, conductors that connect the installations to a supply of electricity, other outside conductors adjacent to the premises, and mobile homes and travel trailers within the City of Redmond, except such portions as may be deleted, modified or amended by this ordinance; and from the effective date of this ordinance, the provisions thereof shall be controlling within the limits of the City of Redmond. Three (3) copies of said National Electrical Code have been filed and will be kept on file in the office of the City Clerk for use and examination of the public.
